

AP[®] Calculus AB

How does our course prepare you for the exam?

COVERS EVERYTHING

This course covers all 8 units of the AP[®] Exam. Trust this course to equip you with all of the content you will need to prepare.

BUILT FOR THE EXAM

Half of the AP[®] Exam is free response. Our live classes, tests, and homework are geared to help you represent and solve the questions you will find there.

REGULAR STUDY

Our course includes weekly quizzes, assignments, and discussion posts to help ensure that the necessary ideas stick.

“This course was very well put together. The video lectures contained several useful examples and the homework really challenged me to expand on new skills that I had learned.”
— Alexandra, NC

“This course thoroughly equips students to take the AP[®] Calculus exam. The instruction is excellent.”
— Catherine, TX

“Calculus can be hard but it all connects... it’s like everything you’ve learned comes together to create a big and beautiful picture.”
— Serena, CA

75% of our AP[®] Calculus students pass with a 3 or higher. Only 58% of other test-takers can say the same.

Average Scores:

50% scored a 5 | only 19% of global test-takers scored a 5

Every 2018-19 student with an “A” in our course **passed** the exam with a score of 3 or higher.

→ **Remember:** An AP[®] course is designed for two purposes: college prep and exam prep. Our course teaches the content you will need for the AP[®] exam. But, more importantly, it teaches you to think, write, and study the subject with college-level expectations. If you feel the need for more exam practice, you are responsible to pursue that on your own.
