#### Please note:

1. In lieu of a textbook, Geometry students are required to purchase a Math Membership Package with IXL Learning, an online learning lab that provides access to hundreds of math problems at all grade levels. For the best value, we recommend purchasing a Yearlong Family Math Membership and using it for all of your student's math needs throughout the year. *HSLDA does not necessarily recommend or endorse other IXL products.*
2. If you chose to purchase from Homeschool Buyers Co-Op (the second link listed above) you will need to scroll down and click to expand "IXL Math for New Subscriber" in order to purchase the MATH membership only for \$59.25.
3. For additional information about the geometry topics included in an IXL Math Membership Package, please visit <https://www.ixl.com/math/geometry>
4. In addition to the textbook, Geometry will suggest the use of a graphing calculator as a supplemental tool to study the effects of slope, intercepts, exponents, and leading coefficients on graphs. The Academy recommends a **TI-84** or equivalent, but a regular scientific calculator is perfectly acceptable also.
