

AP[®] Microeconomics

How does our course prepare you for the exam?

PRACTICE TEST

The Final Exam for this course is in the format of an actual AP[®] Exam. The more practice exams students take, the better prepared they are.

GRAPHING WORKSHOPS

The AP[®] Exam requires that students explain market changes with graphs. This course includes workshops that help students prepare for these.

REGULAR STUDY

Our course includes weekly quizzes, assignments, and discussion posts to help ensure that the necessary ideas stick.

“I am in love with HSLDA's classes! I like to know what is expected of me and LOVE the accountability of getting your work in by a certain time.”

— Liana, CA

“Everything is broken down into manageable pieces, the teachers are very knowledgeable and kind, and the students are tons of fun.”

— Abi, TX

“This is one of the best courses I have ever taken. I highly recommend it.”

— Trung, VA

“Extremely fun course and extremely friendly and effective teacher. Also, it teaches many life lessons.”

— Tan, VA

→ **Remember:** An AP[®] course is designed for two purposes: college prep and exam prep. Our course teaches the content you will need for the AP[®] exam. But, more importantly, it teaches you to think, write, and study the subject with college-level expectations. If you feel the need for more exam practice, you are responsible to pursue that on your own.

Pay special attention to:

- The Perfect Competition Model
- Imperfect Competition
- Monopsonistic Markets
- The Production Function
- Resource Allocation & Economic Systems
